Was the TA knowledgeable about the subject matter of the course?

Definitely very knowledgeable - Very smart.

Was the TA able to effectively explain the course material to you?

This was the problem. As much as Dominik understood the subject, he still couldn't effectively answer my questions. Everything was yes and no at the same time. Not very definite.

Was the TA fair in grading exams, papers, etc.?

I don't know if fair, but I did appreciate his comments. That was constructive.

Was the TA approachable outside of class? Did he/she keep regular office hours and respond to your questions cordially and professionally?

If there was a recitation section do you feel that it was valuable to you? In what way?

No. Recitation did not teach me anything. Lecture was enough and understandable on its own. In fact, recitation sometimes confused me.

Was the TA knowledgeable about the subject matter of the course?

Definitely very knowledgeable. Very smart.

Was the TA able to effectively explain the course material to you?

This was the problem. As much as Dominik understood the subject, he still couldn't effectively answer my questions. Everything was yes and no at the same time. Not very definite.

Was the TA fair in grading exams, papers, etc.?

I don't know if fair, but I did appreciate his comments. That was constructive.

Was the TA approachable outside of class? Did he/she keep regular office hours and respond to your questions cordially and professionally?

If there was a recitation section do you feel that it was valuable to you? In what way?

No. Recitation did not teach me anything. Lecture was enough and understandable on its own. In fact, recitation sometimes confused me.
